Help

Log Out

On this page you can view your existing submissions to Literotica, check on their status, and select any options that might be available for each submission. If you make any changes, you must push the "Save Changes" button at the bottom or they will not be saved. If you would like to make a new submission, please visit the [Submit Page](#).

Important Note: If you turn off the voting on any submission, at any time, that submission will no longer be eligible for awards in the monthly contests. This rule was put in place to prevent people from trying to "lock in" a certain rating. When you turn off voting on a submission, it will no longer be listed in the "ratings" toplist, either. It will, however, still be ranked by number of "views" in the toplist section of the site.
